

SPONSORSHIP PACKAGE 2026

Innovation. Professionalism. Excellence.

QUEEN'S ENGINEERING COMPETITION

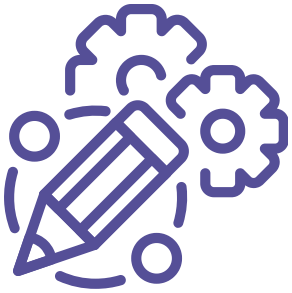

NOVEMBER 14, 2026

ABOUT QEC

The Queen's Engineering Competition (QEC) 2026, held on November 14th, challenges top engineering students to innovate across nine categories: Programming, Senior Design, Junior Design, Communications, Consulting, Innovation, Re-engineering, Bioengineering, and Debate.

In teams of up to four, students develop creative solutions to real-world problems, with winning teams advancing to the Ontario Engineering Competition. QEC cultivates critical thinking, teamwork, and practical problem-solving, providing participants with opportunities to apply their theoretical knowledge. Competitors gain valuable experience in technical communication, leadership, and project management.

The competition also offers valuable networking opportunities with corporate sponsors and industry professionals, helping students build career connections and gain industry insights. For sponsors, QEC provides direct engagement with the next generation of engineering leaders, supporting education while enhancing corporate visibility and reputation.

A LETTER FROM THE CO-CHAIRS

Dear Prospective Sponsors,

We are so excited to invite you to join us as a sponsor for the upcoming Queen's Engineering Competition! As co-chairs, we are thrilled to lead this event that brings together some of the brightest engineering minds from Queen's University. QEC is an important part of the Queen's engineering experience, fostering innovation, creativity, and technical excellence among students.

During the competition, participants engage in a series of challenging and stimulating events designed to test their problem-solving skills, teamwork, and creativity. Your support is crucial in making this event a success! By partnering with us, you will not only be contributing to the professional and personal growth of the next generation of engineers, but also gaining exclusive access to talent, networking opportunities, and brand visibility within the Queen's community and beyond.

Our sponsorship package is designed to ensure that your investment aligns with your company goals and maximizes your engagement with our participants. Your involvement will play a vital role in improving the competition experience and supporting our mission to inspire and empower future leaders in engineering. We are grateful for your consideration and look forward to the possibility of partnering with you. Together, we can make QEC 2026 an enriching experience that drives innovation and excellence in engineering education. Thank you for your support.

Sincerely,

Monica Saad & Blake Conod
Co-Chairs, Queen's Engineering Competition 2026-27

CHALLENGES

JR. DESIGN

First- and second-year engineering students showcase their problem solving skills by designing, building, and presenting prototypes. This competition highlights their creativity and technical talents, demonstrating their potential contributions to the field.

SR. DESIGN

Third- and fourth-year students tackle complex, real-world problems, designing and building functional prototypes within constraints. This hands-on experience showcases their technical skills, creativity, and problem-solving abilities.

PROGRAMMING

The competition challenges participants to create high-quality software solutions for real-world problems. It emphasizes developing a product from start to finish, requiring strong technical writing, project management, and software development skills.

CHALLENGES

RE-ENGINEERING

This competition focuses on repurposing materials for new uses, challenging participants to creatively redesign everyday objects. It encourages innovative thinking in design and sustainability amidst growing concerns about waste.

INNOVATION

Through the expression of critical thinking, delegates will develop a progressive solution to address a void in current societal needs. Unique from the other eight challenges, delegates have full autonomy over the topic they choose, and must conduct research prior to the conference.

BIOENGINEERING

This challenge allows competitors to explore the intersections of biology, engineering, and medicine. Competitors will be challenged on their technical knowledge and skills and will be required to evaluate the economic, environmental, political and social implications of their proposed solutions.

CHALLENGES

COMMUNICATIONS

Participants transform complex engineering problems into accessible and engaging presentations for a general audience. This category emphasizes clarity, storytelling, and public engagement.

CONSULTING

Teams act as professional consultants, solving multifaceted, real-world problems with thorough, practical solutions. Participants present their recommendations to a panel of judges, simulating an industry consulting experience.

DEBATE

Competitors are tasked with constructing persuasive arguments. Teams of two will need to use their analytical skills to present a well-reasoned perspective for a resolution that is annouced the day of the competition.

SPONSORSHIP TIERS

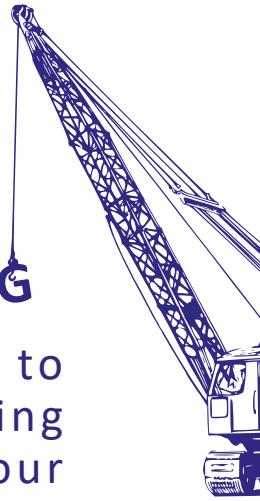

Benefits	Platinum (LIMITED)	Gold	Silver	Bronze	Iron
Value	$10,000	$5,000+	$2,000+	$500+	Up to $500
Dedicated Social Media Post	✓	✓	✓	✓	✓
Logo on Website, Delegate Package, and Delegate Merchandise	✓	✓	✓	✓	✓
Opportunity to Interact with Delegates at the Competition	✓	✓	✓	✓	✓
Opportunity to Send Judges	✓	✓	✓	✓	
Company Booth in Front Foyer	✓	✓	✓	✓	
Full Page in Delegate Handbook	✓	✓	✓		
Resume Book from Top Competitors	✓	✓			
Presentation at Opening Ceremony	✓				
Opportunity to Design a Challenge	✓				

QEC IS OPEN TO DEVELOPING A MUTUALLY BENEFICIAL RELATIONSHIP WITH ALL OF OUR SPONSORS. WE ARE OPEN TO DISCUSSING THE ABOVE CRITERIA TO FIT WHAT YOU HAVE IN MIND REGARDING SPONSORSHIP. QUEEN'S UNIVERSITY ISSUES DONATION RECEIPTS FOR BOTH MONETARY AND IN-KIND DONATIONS FOR TAX-RELATED BENEFITS.

WHY YOU SHOULD SPONSOR QEC

TALENT

Sponsoring QEC connects you with top engineering talent at Queen's University. Showcase your brand, engage with potential future employees, and support engineering education. Position your company as a leader in talent development and innovation.

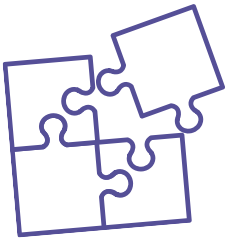

JUDGING

Judging at QEC showcases your commitment to innovation and supports emerging engineering talent. Connect with top students, promote your brand, and network with other industry leaders. Enhance your reputation as a forward thinking organization shaping the future of the industry.

INNOVATION

Sponsoring QEC puts companies at the forefront of innovation. Showcase your brand, connect with young engineers, and gain insights into emerging trends. Identify talent and foster valuable connections for growth.
